Vandal-Resistant Hardware

The US-CSH-02 security wall housing is designed to house Commend's tamper/weather resistant substations in either interior or exterior locations. Both the size and high visibility colors, provide an extremely visible and aesthetic security site for people in duress. The housing is constructed of heavy duty brushed stainless steel, which could be powder coated in a variety of durable finishes. This provides a reliable and attractive housing for the Commend security substation. The US-CSH-02 can be configured to accept a variety of Commend security substations.
